2. A seventh section subordinate directly to Minister Kliment will probably be formed in the near future and will be in charge of the administration of the Skoda Works in Pilsen. Each of the main sections is to be staffed by approximately 140 employees. The offices of the Minister, of the First Deputy and of the sections under his charge are located in the building of the former Ministry of Industry in Prague. The offices of the remainder of the Ministry are located in the building of the former enterprise management of Ceskomoravska Kolben-Danek in Prague-Karlin. When the seventh section is formed it will be located in Pilsen.
